THE KELSEY NURSERIES
ST. JOSEPH, MISSOURI

To Our Customers

This price list includes the best of the older varieties and cream of the newer sorts. We feel sure that they will give satisfaction to every customer. We are growing hundreds of varieties of fruits, flowers and other plants not offered in this price list. If interested in planting other varieties than those named, we solicit correspondence regarding same. The ones listed have been found by test to be well adapted to this latitude, and are recommended by us for general planting.

FACILITIES

Our facilities for packing and handling stock without exposure are all that could be desired, having packing houses and cellars especially designed for this purpose, which, with our large number of trained assistants enable us to pack and deliver all orders in fine condition.

SHIPPING SEASONS

Begins about October 1 in the fall and continues up until cold weather sets in. In the spring, we commence our shipping about March 1 and continue throughout April and up until about the middle of May.

ENTOMOLOGIST'S CERTIFICATE

We have the state inspector's certificate showing our stock to be free from San Jose scale and other dangerous insect or plant disease and attach FACSIMILE copy to each shipment.

We especially urge our customers to select from the varieties marked with a star (*), and salesmen should give these varieties the preference in their canvass.

Where an order is given to our salesman who is taking orders for delivery at a certain point, we furnish the stock with all charges paid to destination regardless of size of order, at prices named in this list.

GUARANTEE OF GENUINENESS—If any nursery stock, etc., proves untrue to description under which it is sold, we hold ourselves in readiness, on proper proof, to replace all such nursery stock, etc., that may prove otherwise, or refund the amount paid, but we shall in no case be liable for any sum greater than the amount originally received for said nursery stock.

RATES

We can sell 25 at the hundred rate; such as, 25 apple in assortment, 25 cherry, 25 ornamental trees, 25 roses, 25 shrubs and vines. 50 fruit trees in assortment of any variety at the hundred rate.

Small fruit plants in lots of 25 or more at the hundred rate. For example, 25 grapes or 25 currants may be sold at the hundred rate. 300 plants at the thousand rate on items priced per thousand.

This price list cancels all previous quotations.

STRAWBERRIES

The Strawberry has been styled the Queen of Fruits. It is the first to ripen and the quickest to come into bearing. Can be successfully grown on a great variety of soils; responds readily to kindly location and liberal feeding and culture. You can have Strawberries all summer now. The new Everbearing varieties are just as easy to grow as the common Strawberries, yield the same way in June, and then keep on bearing all summer. They are the only Strawberries that will give you fruit the first season. They need no special care.

Sell not less than 25 of a kind. (S) Staminate, (P) Pistillate.

ORNAMENTAL SHRUBS

No lawn or yard, whether large or small, is either complete, attractive or homelike without a certain amount of flowering shrubs.

Properly arranged they in no way encroach upon the lawn. They not only add beauty and adornment, but at the same time can be used as screens to cover unsightly objects or fences, and break the foundation line of the house. They are indispensable, besides lending a cheerful homelike effect. A few dollars spent in shrubs will often add more value to a property than hundreds of dollars spent in other ways.
